# ROB GRAHAM ENTERPRISES

#### **ABOUT US**

## WE ARE ROB GRAHAM ENTERPRISES

Our experience in direct to consumer marketing across online and offline platforms spans nearly three decades. In that time, we've learned the key to success is creating engagement using interactive content that filters out low levels of intent.

#### THE PROBLEM

## THE PROBLEM WITH THE LEAD GENERATION INDUSTRY

#### **Incentivized Model**

It's an incentive-based model that rewards quantity over quality. Most leads don't work. To mitigate downside, buyers choose more leads for less money.

#### **Cheap Data Leads**

Many sellers don't generate their own leads. They buy cheap data and attempt to qualify it with overseas labor and avatars.

This produces low intent conversations and poor outcomes.

#### **Lead vs. Acquisition**

It's easier for buyers to know lead costs than acquisition costs. This encourages lead vendors to sell the same lead multiple times in the same industry at low prices to generate better margins.

#### THE PROBLEM

## THE PROBLEM WITH THE LEAD GENERATION INDUSTRY

#### **Can't Optimize**

Buyers and sellers aren't integrated so the seller can't optimize the process to produce better outcomes for the buyer.

#### **Mixing Poor Leads**

Large aggregators take good quality leads from one source and mix them with cheap, poor quality leads from other sources. This produces minimum performance standards at high volume.

#### Leverage

The lead buyer has extraordinarily little leverage in these transactions. Their only option is to not buy leads, which isn't an acceptable outcome for them.

#### THE SOLUTION

## WHAT MAKES RGE THE RIGHT CHOICE

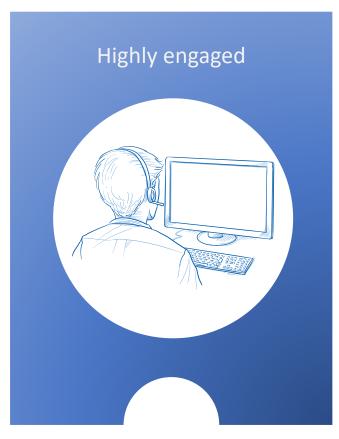

We generate our own qualified leads and sell them exclusively in one vertical at scale.

Our incentives are aligned with yours. We optimize for CPA, which leads to higher CPL's for us.

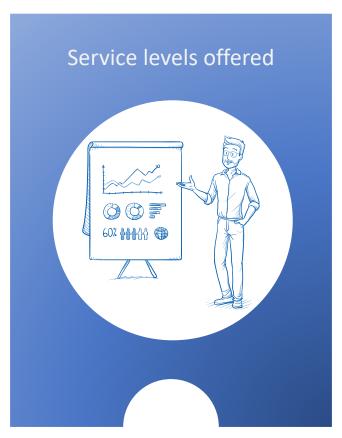

#### THE SOLUTION

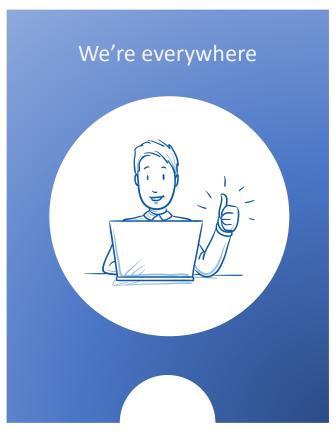

## WE DRIVE ENGAGEMENT THROUGH MICRO-COMMITMENT

At the top of our funnels, we use interactive content that compels interested prospects to raise their digital hand.

We offer 2 levels of service; Qualified exclusive data & warm call transfers with a buffer.

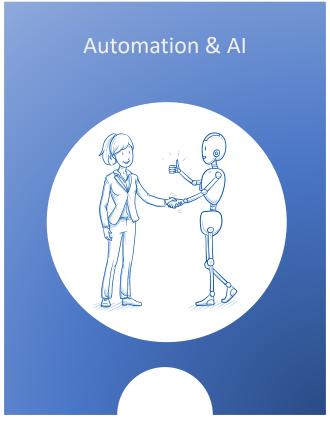

Our acquisition strategy is omnichannel; we're online and offline.
